

DNA COLLAGEN VEIL

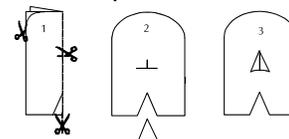

FOR DRY AND AGING SKIN

Directions for use PREPARATION PHASE

TREATMENT PHASE

1. Apply **EYE ZONE INTENSIVE CARE** on the eye contour area.
2. Using a cotton wool pad, moisten skin with **COLLAGEN ACTIVATOR**.
3. On moistened skin, apply **REPAIR SERUM*** (DNA) or **MULTI VITAMIN SERUM*** depending on client's skin type. Massage until completely absorbed.
4. Fold a sheet of **DNA COLLAGEN VEIL** in half. Using a fingernail, mark the position of nose and chin.

5. Cut the mask to correspond to the nose and chin measurements.
6. Apply the mask to the face. Moisten mask with **ACTIVATOR** using a brush or a sponge. Start from the centre moving to the sides of the face, to eliminate air bubbles under the mask.
7. Allow the mask to do its work for **20 minutes** making sure it remains moist. If necessary, add more **ACTIVATOR**.
8. Remove the mask by rolling it off, starting from the forehead and rolling it down.
9. Complete the treatment by applying **NOURISHING CREAM** or **FIRMING CREAM**

FOR CLIENT'S HOME USE

NOURISHING CREAM for dry skin

FIRMING CREAM for sagging skin

SERUM REPAIR (for mature skin) or **MULTI VITAMIN SERUM** (for devitalized skin)

at night under the cream.
